DETAILED ACTION

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 16, 17, and 36 are rejected under 35 U.S.C. 102(b) as being anticipated by Larson et al.

Larson et al discloses a tower attached to a marine vehicle and having an erect and a folded position; the tower includes a first member attached to a first strut 342 of the tower; a second member attached to a second strut 302 of the tower; means 347 for pivoting the first member about the second member; means 374 for locking the first member to the second member ; and means 366 for operating the locking means.

Allowable Subject Matter

4. Claims 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 1-15 and 21-35 are allowed.
